# !!! NEW !!!

Dear Sirs,

APS AROSIO SPA's staff and I are proud to announce that our new frame system "UHPS" has reached the following performances according to DIN EN 1886 (07/2009):

MECHANICAL STRENGTH OF CASING	D1
CASING AIR LEAKAGE	L1
THERMAL TRANSMITTANCE	T1
THERMAL BRIDGING OF THE CASING	TB1

These results have been officially certified through tests performed at TUV's laboratories, classifying it as one of the best Model Box ever tested.

It's important to underline that this system (and its performances) have been developed for a standard/industrialized production of AHU.

Please get in touch with your APS AROSIO SPA's referent for more information/details.

I remain, best regards

A.P.S. AROSIO SPA  
Luca Arosio  
Sales Director
